European Journal of Operational Research 33 (1988) 365–366
North-Holland

Contents Volume 33

1 Editorial
2 Recurrent competitive bidding
M. King and A. Mercer
17 Implementation of an expert system for production scheduling
R.M. Kerr and R.V. Ebsary
30 A multiobjective, multi-level heuristic for dynamic resource constrained scheduling problems
M.I. Norbis and J.M. MacGregor Smith
42 Single facility scheduling with multiple job classes
J.N.D. Gupta
46 Equalizing superpower force disparities with optimised arms control choices: A multiobjective approach
C. ReVelle
54 Weight stability intervals in multicriteria decision aid
B. Mareschal
65 Experiments with parallel algorithms for combinatorial problems
G.A.P. Kindervater and H. Trienekens
82 Solution method for partitioning students into groups
I. Miyaji, K. Ohno and H. Mine
91 Computational experience concerning payoff tables and minimum criterion values over the efficient set
H. Isermann and R.E. Steuer
98 Minimum–maximal matching in series–parallel graphs
M.B. Richey and G.R. Parker
106 Note on the optimum span of control in a pure hierarchy
M.-Y. Tarng and M.-S. Chen
114 International publishing in operational research
W.G.M.M. Rutten and C.B. Tilanus
126 OR Software, *H. Thiriez (ed.)*
128 Book Reviews
139 EURO Bulletin, *M. Despontin (ed.)*

Special Issue on Operational Research in the Public Sector

145 Editorial
P.S. Agrell and P. Gibert
149 A price endogenous analysis of agricultural intervention policies: The case of Turkey
H. Önal
159 A methodology for sensitivity analysis in three-criteria problems: A case study in municipal management
C.A. Bana e Costa
174 Allocating nursing staff to hospital wards—A case study
D. Worthington and M. Guy
183 Improving the utilization of training resources through optimal personnel assignment in the U.S. Navy
T.T. Liang and B.B. Buclatin
191 An Icelandic fisheries model
T. Helgason and S. Ólafsson
200 Relationship between futures studies and planning
A. Khakee

0377-2217/88/$3.50 © 1988, Elsevier Science Publishers B.V. (North-Holland)

212 A comprehensive energy model in the municipal energy planning process
C.-O. Wene and B. Rydén

223 Combining forecasts
D.W. Bunn
230 Batching and routing: Two functions in the operational planning of flexible manufacturing systems
J.M. Bastos
245 Allocating work between an FMS and a conventional jobshop: A case study
L.H. Avonts, L.F. Gelders and L.N. Van Wassenhove
257 Experimental design and regression analysis in simulation: An FMS case study
J.P.C. Kleijnen and C.R. Standridge
262 Electronic equipment test unit optimization
M. Dror, D. Einav and Y. Amir
273 A decision support system for wine-making cooperatives
C. Gertosio
279 A forecasting model to evaluate the profitability of price promotions
M.D. Geurts and H. Rinne
290 OR tools for tactical freight transportation planning
T.G. Crainic and J. Roy
298 An optimization model for pavement marking systems
V. Kouskoulas
304 An approximation of known accuracy for single server queues with inhomogeneous arrival rate and continuous service time distribution
S.E. Omosigho and D.J. Worthington
314 An algorithm for solving large capacitated warehouse location problems
J.E. Beasley
326 Surrogate duality in a branch-and-bound procedure for integer programming
S. Sarin, M.H. Karwan and R.L. Rardin
334 Fractional programming revisited
M. Sniedovich
342 Lexicographical order and duality in multiobjective programming
J.E. Martinez-Legaz
349 OR Software, *H. Thiriez (ed.)*
351 Book Reviews
359 EURO Bulletin, *M. Despontin (ed.)*
365 Contents Volume 33
